

Academy Quality framework

Student service

Introduction

- The term – student service
- Absence of this kind of service in higher education in Serbia
- Student service not the same as student administration
- Government and law support

Mision

- To improve quality of studying and student`s life:
 - Student service as a pillar of support to students
 - Easier integration of students into the new environment
 - Student Services as an organizational unit of extracurricular activities for students

Vision

- Establishment of Student Service with units in every school
- Recognition of Student Service among students as a safe harbor
- Student Service as a bridge between students and academy

Key processes

- Financing
- Government and law support
- Logistics support
- Network (coordinating)

Strategic goals

- Web presentation of Student Service
- Close cooperation with student organizations
- Close cooperation with teaching staff
- Conecting with local services

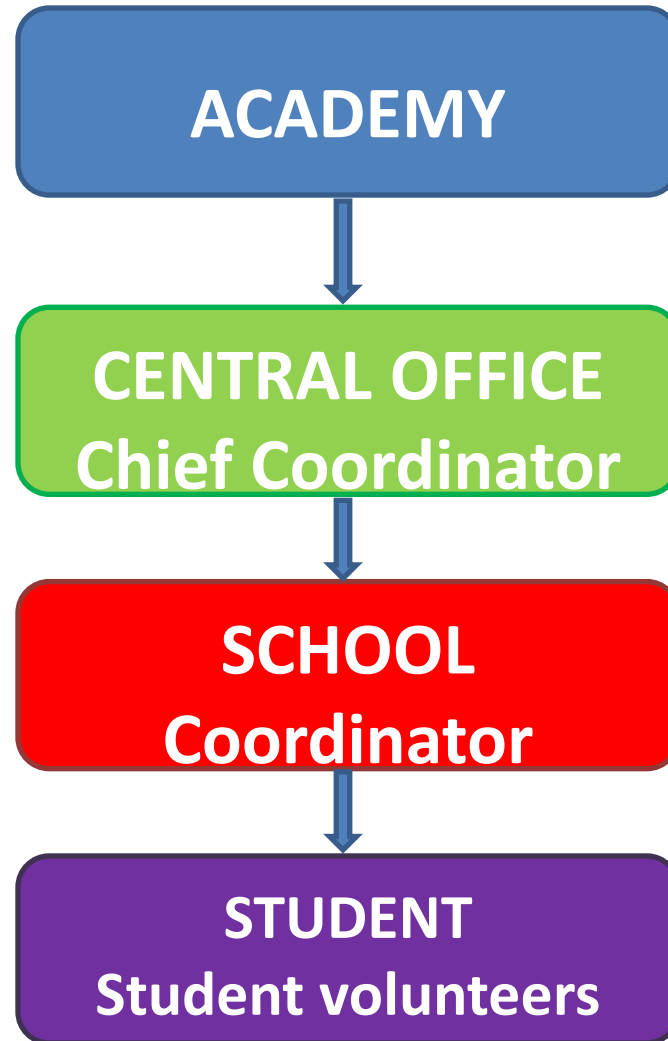

Operational goals

- Each school should have student service officer
- Students participation and volunteering work in student service
- Close cooperation with student parliament and representatives
- Financing and sustainability of student service
- Unique web platform for networking
